Botox®, one of the botulinum toxin drugs derived from the bacterium *Clostridium botulinum*, has gained popularity in the past 20 years as a safe, non-invasive cosmetic treatment for facial lines and wrinkles, but has a rich history in treating a wide and eclectic group of medical and dental maladies and conditions.

Water purification

Water purification is the process of removing undesirable chemicals, biological contaminants, suspended solids, and gases from water. The goal is to produce water fit for specific purposes. Most water is purified and disinfected for human consumption (drinking water), but water purification may also be carried out for a variety of other purposes, including medical, pharmacological, chemical ...
