

Download Cyber Law And Cyber Security In Developing And Emerging Economies

Cyberwarfare

Cyberwarfare is a broad term describing the use of technological force within cyberspace. ‘Cyberwarfare’ does not imply scale, protraction or violence which are typically associated with the term ‘war’. There is significant debate among experts regarding the definition of cyberwarfare, and even if such a thing exists. The term ‘Cyberwarfare’ is a misnomer, to date no offensive ...

Cyber Security

International-Relations Perspectives on Cybersecurity. Despite a growing consensus that cyberspace has significant implications for international relations (IR) in general and security in particular, existing scholarship has generated relatively few IR theory-oriented analyses on the topic so far, apart from early pioneers such as Deibert 2003. ...
