TDS

The TDS-1000 Top Drive is driven by a Variable Frequency Drive (VFD) control system for a greater range of torque and speed performance. System components include an integrated swivel, link tilt system, remote and manual blowout preventer valves, a back-up type pipe handler for making and breaking connections (including upper and lower IBOP connections) and a guide dolly for reacting torque. 10000 Richmond Avenue Houston, Texas 77042
